Professional Education
Bootcamp

Professional Experience

Software Developer Intern, HCL Technologies, Austin, TX, May 2022 –

Present

- Followed Agile software methodology for project development
- Collaborated with other team members to design and develop a web-based internal portal for the company
- Used JIRA for issue tracking and project management
- Improved the existing application by developing new components in React and JavaScript
- Committed code to git and participated in code review with team
- Supported and worked with QA team to test and deliver products successfully with minimum bugs
- Technologies: ReactJS, HTML5, CSS3, Javascript, Git, JIRA

Personal Project

ENTERTAINMENT APPLICATION

- Developed a web application that gives you access to music and movie content in one place
- Used Spotify and The Movie Database (TMDB) APIs to populate music titles by their respective genre where you can preview the content you filter
- Technology: JavaScript, Canva, Jira, Spotify API, TMDB API, HTML, CSS, Git

WEATHER APPLICATION

- Built a web application that allows users to search for a city to get the current weather and 5 days fore. The cities that users previously looked up will be saved in their local storage
- Displayed the city name, the date, an icon representation of weather conditions, temperature, humidity, wind speed, and UV index
- Technology: OpenWeather API, Bootstrap, HTML5, CSS2, Javascript, Git
