The University of Texas at Austin-Center for Professional Education Bootcamp

Professional Experience

Contractor Software Developer, *Tata Consultancy Services, Austin, TX*, **November 2020 – Oct 2021**

- Followed Agile software methodology for project development.
- Collaborated with other team members to design and develop a web-based internal portal for the company.
- Assisted in maintenance of software for engineering applications.
- Committed code to git and participated in code review with team.
- Supported and worked with QA team to test and deliver products successfully with minimum bugs.
- Technologies: ReactJS, HTML5, CSS3, Javascript, Git.

Academic Project

ENTERTAINMENT APPLICATION

- Developed a web application that gives you access to music and movie content in on place
- Using Spotify and The Movie Database APIs, our application populates music titles by their respective genre where you can preview the content you filtered.
- Technology: JavaScript, Bulma, jQuery, Canva, Jira, Spotify API, HTML, CSS, Git.

WEATHER APPLICATION

- Built a web application that allows users to search for a city to get the current weather and 5 days fore. Cities that users previously looked up will be saved in their local storage.
- Displayed the city name, the date, an icon representation of weather conditions, the temperature, the humidity, the wind speed, and the UV index.
- Technology: OpenWeather API, Bootstrap, HTML5, CSS2, Javascript , Git.
